ACHIEVEMENTS

Smart India Hackathon 2019

Won 1st place in Smart India hackathon, one of the biggest hackathon in the world. I was the team leader.

SYNDinovate

I went to Bengaluru and competed against working professionals after being shortlisted from 3000 candidates. I have secured secured consolation price with cash reward

Hackathon by SNN

Got runners up position in SSN hackathon.In the 24 hours event we were able to raise on top and receive cash reward.

SRM Texus 2020 hackathon

Won 1st place in SRM Texus 2020 hackathon. We created an indoor AR navigation system for mobile devices.

PROJECTS

Java Billing

📅 2019 📍 Chennai

Contract work

- A fireworks manufacturing company needed a custom billing software for their billing.
- I have built a java application with mysql backend and designed a fault tolerant system for long term use.

SUMMARY

I'm a passionate full-stack developer and a cloud practitioner. I have won multiple hackathons and other competitions. I love seeing my project from scratch to full functioning product.
